Computer Games on Laptop Graphic Cards

Which games run fluently on laptop graphic cards

The following games list shows all notebook graphic cards (GPUs) sorted by the approximate performance (similar to the [notebook gpu benchmark list](#)). The fields contain **average frames per second (fps)** values for each game / setting combination. If the framerate is sufficient for fluent gaming (>25 fps), the field is painted in green. Otherwise, red for stutterings and yellow for an unsure prognosis. Furthermore, all fields without values are interpolated to convey the approximate gaming performance (brighter colors). The results are based on many different laptop reviews with different hardware. To see the detailed results, visit the GPU page or hover over the values with the mouse.

Note: With slower components (like a slow CPU) the gaming performance may be noticable slower.

EXTENDING PRODUCTIVE OF JOBS' COMPLEX

MONSTROUS BOLD LIQUID SLEEK

The most difficult aspect in the formation of Steve Jobs' complex was the articulation of each space in relation to one another. A sleek manner had to be implied by the building's form in order to reflect Apple's product range of its most recent 3G, and this was achieved through modelling the building as though it is an extrusion of 3 liquified segments. This was not only applied in the building, but also with interior spaces as components possessed sleek and smooth flowing geometry. Large openings allows for a sense of freshness to be exhibited which further emphasises the notion of their products. Furthermore, Jobs' space is located above all others, representing his reign not only in the company itself, but also in society as a whole, catering for almost the whole technological industry. Ramps and staircases are monumental in terms of scale, provoking, yet at the same time inviting people to endeavour the building's peculiarity.

DATUM www.dictionary.com

da·tum –noun, plural **da·ta**

1. a single piece of information, as a fact, statistic, or code; an item of data.

2. *Philosophy.* a. any fact assumed to be a matter of direct observation. b. any proposition assumed or given, from which conclusions may be drawn.

3. Also called sense datum. *Epistemology.* the object of knowledge as presented to the mind. Compare ideatum.

4. *Surveying, Civil Engineering.* any level surface, line, or point used as a reference in measuring elevations.

5. *Surveying.* a basis for horizontal control surveys, consisting of the longitude and latitude of a certain point, the azimuth of a certain line from this point, and two constants used in defining the terrestrial spheroid.

[Origin: 1640–50; < L: a thing given, neut. ptp. of *dare* to give]

[Origin: 1640–50; < L: a thing given, neut. ptp. of *dare* to give]

SECTION

sec·tion –noun

1.a part that is cut off or separated.

2.a distinct part or subdivision of anything, as an object, country, community, class, or the like: *the poor section of town; the left section of a drawer.*

3.a distinct part or subdivision of a writing, as of a newspaper, legal code, chapter, etc.: *the financial section of a daily paper; section 2 of the bylaws.*

4.one of a number of parts that can be fitted together to make a whole: *sections of a fishing rod.*

5.(in most of the U.S. west of Ohio) one of the 36 numbered subdivisions, each one square mile (2.59 sq. km or 640 acres), of a township.

6.an act or instance of cutting; separation by cutting.

7.*Surgery.* a.the making of an incision. b.an incision.

8.a thin slice of a tissue, mineral, or the like, as for microscopic examination.

9.a representation of an object as it would appear if cut by a plane, showing its internal structure.

10.*Military.* a.a small unit consisting of two or more squads. b.*Also called staff section.* any of the subdivisions of a staff. c.a small tactical division in naval and air units.

11.*Railroads.* a.a division of a sleeping car containing both an upper and a lower berth. b.a length of trackage, roadbed, signal equipment, etc., maintained by one crew.

12.any of two or more trains, buses, or the like, running on the same route and schedule at the same time, one right behind the other, and considered as one unit, as when a second is necessary to accommodate more passengers than the first can carry: *On holidays the New York to Boston train runs in three sections.*

13.a segment of a naturally segmented fruit, as of an orange or grapefruit.

14.a division of an orchestra or band containing all the instruments of one class: *a rhythm section.*

9.a representation of an object as it would appear if cut by a plane, showing its internal structure.

10.*Military.* a.a small unit consisting of two or more squads. b.*Also called staff section.* any of the subdivisions of a staff. c.a small tactical division in naval and air units.

11.*Railroads.* a.a division of a sleeping car containing both an upper and a lower berth. b.a length of trackage, roadbed, signal equipment, etc., maintained by one crew.

12.any of two or more trains, buses, or the like, running on the same route and schedule at the same time, one right behind the other, and considered as one unit, as when a second is necessary to accommodate more passengers than the first can carry: *On holidays the New York to Boston train runs in three sections.*

13.a segment of a naturally segmented fruit, as of an orange or grapefruit.

14.a division of an orchestra or band containing all the instruments of one class: *a rhythm section.*

15. *Bookbinding.* signature (def. 8).

16. Also called section mark, a mark used to indicate a subdivision of a book, chapter, or the like, or as a mark of reference to a footnote.

17. *Theater.* one of a series of circuits for controlling certain lights, as footlights.

18. shape (def. 12). –verb (used with object)

19. to cut or divide into sections.

20. to cut through so as to present a section.

21. *Surgery.* to make an incision.

[Origin: 1550–60; < L

15. *Bookbinding.* signature (def. 8).

16. Also called section mark, a mark used to indicate a subdivision of a book, chapter, or the like, or as a mark of reference to a footnote.

17. *Theater.* one of a series of circuits for controlling certain lights, as footlights.

18. shape (def. 12). –verb (used with object)

19. to cut or divide into sections.

20. to cut through so as to present a section.

21. *Surgery.* to make an incision.

[Origin: 1550–60; < L sectus - (s. of secare) a cutting, equiv. to *sect(us)* (ptp. of *secare* to cut; see saw1) + - -ion]
